The screenshot shows a web browser window displaying the Louisiana Well Owner Network website. The browser's address bar shows the URL [ldh.la.gov/subhome/56](http://ldh.la.gov/subhome/56). The website's main heading is "LOUISIANA WELL OWNER NETWORK". Below the heading, a breadcrumb trail reads "Louisiana.gov > LDH > Louisiana Well Owner Network". On the left side, there is a vertical menu with the following items: OPH HOME, JOIN, RESOURCES, FAQ, PARTNERS, LINKS, and WELL TESTING. The main content area features a large image of water being poured into a glass. To the left of the image, the text reads: "The Louisiana Private Well Owner Network (PWON) is an educational outreach program offered by the Louisiana Department of Health in cooperation with the Louisiana Department of Natural Resources and other partner agencies and organizations." Below this text are two teal buttons: "Private Water Well Disinfection Instructions" and "Lender Testing Requirements". On the right side, there is a section titled "GET MORE INFORMATION" with the phone number "1.888.293.7020". Below this is a "REQUEST MORE INFO" button and a "Private Well Water Testing" banner. At the bottom right, there is an "ACCESSIBILITY" link and a small box asking "DOES YOUR HOME OR FARM USE WATER FROM A PRIVATE WELL?" with a note about free water sampling kits.
